Good Morning Katie,

I hope this email finds you well, please find attached the "plan" for the next 5 years, obviously this is will be impacted by budgets and funding we have plus any contributions we can acquire, When I made this plan iv looked from a maintenance side of things to bring the facilities to a higher standard. Maintenance being my background for playground for the last 6 years. Obviously with that being said I'm happy and open to have discussions around what provisions the parish council would like etc.

I look forward to hearing from you.

Kind regards

Sam
