Subject: Public Consultation: Hampshire and Isle of Wight Fire and Rescue Service Safety Plan 2025-2030

Dear Stakeholders,

I am writing to extend an invitation to you to contribute to our consultation on the future of your local fire service. As part of our statutory requirements, we are developing a comprehensive "Community Risk Management Plan" for 2025-2030, which we call our Safety Plan.

The proposed Safety Plan aims to address the various risks that our communities may face, such as fires, extreme weather events, and road accidents. It outlines preventive measures and strategies to mitigate these risks, while optimising the use of our resources for the benefit of Hampshire and Isle of Wight residents.

We believe that the insights and feedback from our stakeholders are crucial in shaping a robust and effective Safety Plan, to ensure that our strategies are aligned with the needs and expectations of the communities we serve. This is a vital opportunity to contribute to the safety and well-being of your constituents.

The consultation will remain open until 18 December 2024 after which we will compile the feedback and finalise the Safety Plan for approval by the Hampshire and Isle of Wight Fire and Rescue Authority in early 2025. The finalised plan will come into effect from 1 April 2025.

Additionally, we would appreciate you sharing the details of this consultation with your networks. Their perspectives will enable us to create a plan that truly reflects the community's needs and ensures that a broad and representative range of voices are heard.

We value your participation and look forward to your valuable input in this important conversation. Should you have any questions or require further information, please do not hesitate to contact us.

Thank you for your time and consideration.
