Subject: New Tree Warden Network - please provide warden details
To:

Hello,

Wight Nature Fund has recently completed set up of a framework for Tree Wardens, for the Isle of Wight. The Isle of Wight is now a county network within Tree Council's national Tree Warden network.

We will be holding a launch event for the network on 10th November, at the Isle of Wight Steam Railway.

We already have details for many tree wardens, but aren't certain we have details for all existing wardens. If you have an existing nominated tree warden for your council, please can you forward me their details?

If there is no nominated tree warden for your council, please can I ask you to include an item to identify a warden, in the agenda for your next meeting?

The benefits of tree wardens for local councils are well established. You can learn more here:

<https://treecouncil.org.uk/tree-wardens/>

If you would like to send a councillor to the launch event, to understand more, before your council nominates a tree warden, please forward their contact details to me, so we can extend an invite to them.

Many thanks

Thomas Cowley
